

BALLINGER JUSTIFIED

He's a Wise, Honest Official.

So Decide Majority of Committee Who Conducted Investigation.

Report to Include Resume of the Testimony Taken and Deductions Made.

Madison and Four Democrats to Present Minority Findings.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 17.—[Exclusive Dispatch.] Richard Achilles Ballinger is a wise, honest, conservative official, entirely qualified to discharge the duties of the Secretary of the Interior and fit to be intrusted with the interests of the people of the United States.

This sums up the findings of the majority of the joint congressional committee which, for five months has been making an exhaustive investigation of the conduct of affairs of the entire Department of the Interior and also of the Bureau of Forestry of the Department of Agriculture.

The investigators who concur in these findings, which constituted a condemnation of the course of Gifford Pinchot, former Chief Forester; James R. Garfield, former Secretary of the Interior; and Louis R. Glavis, former chief of a field division of the General Land Office, will be found to be the following:

Senator Nelson, Minnesota, chairman; Senator Flint, California; Senator Sutherland, Utah; Senator Root, New York; Representative Samuel W. McCall, Massachusetts, vice-chairman; Representative Edwin N. Denby, Michigan; Representative Martin E. Crockett, Pennsylvania.

Minority reports, disagreeing with the foregoing findings, will be made by Senator Edward H. Madison, Kansas; Senator Purcell, North Dakota; Senator Fletcher, Florida; Representative Ollie M. James, Kentucky; Representative J. M. Graham, Missouri.

Madison is a Republican and the last four named are Democrats. Since the adjournment of Congress the members of the investigating committee have been drafting reports and their conclusions in the famous case.

BASIS OF REPORTS.

The basis of the reports for the majority was prepared by Senator Nelson, and for the minority by Representative James R. Garfield.

Mr. Madison is writing his own opinions. It is understood that the results of the labors of Nelson and James have been submitted to the members of the committee for criticism and for additions.

By the time the committee reassembles, September 10, it will have in final shape the reports which it will make.

It is intended to give the reports to the press without delay, in order that the charges shall not be uttered that the Republican party deliberately suppressed the findings because of the effect upon the impending congressional campaign.

The report of the majority will be what the friends of Gifford Pinchot have expected for some months. It will be found to be a long resume of the testimony of numerous witnesses and deductions therefrom. The majority report will declare:

That Ballinger is a wise, honest, conservative officer of the government.

That Ballinger acted entirely within the record and displayed proper judgment in his attitude with respect to the Cripple Creek coal claims.

That Ballinger was justified in his criticism of the Reclamation Service.

That Ballinger was justified in abandoning the policy of Garfield, expressed in a "cooperative agreement" whereby absolute control, management and direction of certain employees in the Reclamation Service were given over to the Forestry Bureau of the Department of Agriculture.

SPECIAL TRAINS RUSH COTTON TO NEW YORK.

[BY DIRECT WIRE TO THE TIMES.]

NEW ORLEANS, July 17.—[Exclusive Dispatch.] In an effort to get New Orleans spot cotton to New York in time to fill July contracts, the first trainload of 24 bales, special trains have been chartered from the Illinois Central and New York Central railroads by local cotton interests.

New York shorts, slipped in the morning, need 100,000 bales to meet demands. The first trainload, with 2000 bales, left this morning, every effort being made to get it away as soon as possible.

The announcement created great excitement, both in railroad and cotton circles, as it is the first time in the history of the cotton industry that trains have been chartered to carry cotton to any market.

Trains will be rushed through New York on a guarantee of a nine-hour schedule.

Last week all steamship space

BLOWN UP BY HEAT FREAK.

Sun's Rays Ignite Blast in Wisconsin Quarry—Workman May Die.

[BY DIRECT WIRE TO THE TIMES.] CHIPPEWA FALLS (Wis.) July 17.—[Exclusive Dispatch.] Peter Gilbertson, aged 50, was blown up by an explosion in the stone quarries of the Chippewa Falls Construction Company at Colfax, Wis., while preparing a blast. Gilbertson had placed three quarts of powder in a tin can on the rocks beside him. The powder was ignited from the fierce heat of the sun, blowing Gilbertson ten feet through the air, although he weighed two hundred seventy-five pounds. His face, arms and body were badly burned. His condition is precarious.

MOTHER CHURCH DROPS SIXTEEN.

MRS. STETSON'S ADHERENTS ARE NO LONGER MEMBERS.

Christian Science Controversy Ends in Expulsion of Partisans—Parent Body Ratifies Action Taken by New York Church Last April—Director McLeellan Is Reticent.

[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, July 17.—Sixteen of the practitioners who were identified with and supported Mrs. Augusta Stetson in her controversy with the First Church of Christ, Scientist, in New York City, have been dropped from membership by the board of directors of the mother church in Boston, according to a statement made today by Archibald McLeellan, one of the Boston directors.

Director McLeellan said he was not able to give their names. "I can only say they were the practitioners who were most prominent in their support of Mrs. Stetson," declared Mr. McLeellan.

THEIR NAMES.

[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, July 17.—The action taken by the mother church in Boston today is a final ratification of the action taken by the First Church in this city April 2 last. At that time fifteen members and practitioners were dropped from the institution. The names of those dropped, as given out at the time, are as follows: Mrs. Kate Y. Bates, Mrs. Mary H. Frohman, Mrs. Sybil M. Huse, Miss Antoinette Ensworth, Mrs. Augusta Alkham, Miss Mary R. Pinney, Miss Margaret Duncan, Mrs. Katherine Kilpatrick, Mrs. Anna H. Holden, Mrs. Leiletta Green, Miss Jesse T. Colton, Arnold M. Blome, Mrs. Stewart C. Rowbotham, Mrs. Amelia S. Rowbotham and Miss Mary R. Pearson.

IMMUNITY FOR PACKERS.

Government Hopes to Convict "High-ups" by Testimony of Lesser Lights.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, July 17.—[Exclusive Dispatch.] Fifty subpoenas will be served tomorrow morning on officers and employees of meat concerns to appear before the Federal Grand Jury in the "beef trust" investigation. Officials of the National Packing Company will be visited first.

Despite the lid that has been clamped tight on all matters relating to the inquiry, it leaked out today that the government plans to extend immunity to a number of packing officials in exchange for the evidence they may be able to give to the inquisitorial body.

It is known that subpoenas have been issued for officials of the National Packing Company. In summoning these officials it is shown that the government does not care for convictions unless those gathered in the net are the men "high up" in the companies.

ST. VINCENT STUDENT DROWNS.

REDDING, July 17.—Gerald G. Kennedy of San Francisco was drowned in the Trinity River near Redding, yesterday. The body was recovered. Kennedy was 20 years old and a student in St. Vincent's College at Los Angeles.

BEARS SHORT.

for freight here and at Galveston has been gobbled up by cotton men as fast as it was offered. Between ten and twelve thousand bales will be sent north by steamer. Part of this was forwarded by the steamships Proteus and Antilles, which left port last Wednesday and yesterday. The Comus, which leaves next Wednesday, will carry the remainder. The Charles W. Shepard Cotton Company was the principal shipper.

The market crisis came yesterday, when the price of spot cotton went to \$15.44 in New York. Spots in New Orleans were 15-15 cents for July contracts. The New York bears were 16-16 cents short. The bears began to order cotton to cover their contracts from every possible place.

Shippers in Galveston, New Orleans and other southern markets were notified to get their cotton to New York as fast as possible, as there was a clear profit of more than \$1 a bale.

KENTUCKY SOAKED.

Storm's Damage Is Three Millions.

Successive Cloudbursts in the State Ruin Crops in Many Sections.

Boy Drowns While Fording Swollen Stream With Grandfather.

Congressman's Wife Rescues Daughter and Maid from Torrent.

[BY DIRECT WIRE TO THE TIMES.]

LOUISVILLE, July 17.—[Exclusive Dispatch.] The storm which visited the towns in Central Kentucky was followed today by one hardly less severe, and it is estimated at present that the loss will reach at least \$3,000,000.

The first loss of life caused by the flood was reported today. James World, an old man living near Mayville, and his grandson, attempted to ford a stream near there in a buggy. The buggy was overturned by the high waters and the boy drowned.

From the many towns visited by the cloudbursts yesterday and again today reports state that the crops are totally ruined and the prospects for a good crop year were never as gloomy as they are at present.

Only meager reports have been heard as yet from the valleys of Madison, Union and Henderson counties, but it is reported that water three feet deep is covering the fields in the lowlands. In Madison county the storm washed away practically all the wheat in the fields, besides ruining the corn and tobacco crops. The smaller tobacco plants were swept away and the larger ones are "drenching" in the fields.

CONGRESSMAN'S WIFE A HEROINE OF FLOOD.

PINEVILLE (Ky.) July 17.—[Exclusive Dispatch.] At the risk of her own life, Mrs. John W. Langley, wife of the Representative of the Tenth Kentucky Congress District, saved her mother-in-law, her little daughter, Katherine, and a maid during the flood which swept counties along Licking River on the night of June 24, carrying off homes and drowning ten persons.

Mrs. Langley, who was visiting her mother-in-law, was awakened during the night by the rushing waters. She opened the door and a great amount of water flooded the room, nearly carrying her off her feet. Knowing that death threatened her daughter and the other two women, she called them in, and, gathering her child in her arms, she led the way into the stream.

In their struggle to a barn on the side of the hill the four were nearly swept away. The house was practically wrecked a few minutes after they left it. After reaching the barn the four had to remain there until daylight.

MANY FARMS UNDER WATER IN ILLINOIS.

[BY DIRECT WIRE TO THE TIMES.] VANDALIA (Ill.) July 17.—[Exclusive Dispatch.] Heavy rains here and floods from the north have put the Okawa (Kaskaskia) River and the tributaries on a rampage. Hundreds of fine farming lands on the west side here are submerged.

DROWNING EPIDEMIC.

Lake Michigan Gets Two Victims: Lake Monona One; Chicago River Two—Body Found Floating.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, July 17.—[Exclusive Dispatch.] A heavy sea running in Lake Michigan, the aftermath of the storm, is believed to be directly responsible for two drownings in Chicago today.

Another Chicagoan dived to his death in Lake Monona at Madison, Wis., where he had gone on a visit. Two boys are believed to have met death in the north branch of the river while playing on its banks, the body of one having been recovered. The toll of death recorded during the day was brought to six by the finding of the body of an unknown man floating in the lake at the foot of Ninety-ninth street. The following is the death list for one day:

HERBERT, AUGUST, 20 years, killed when he dived into two feet of water.

KINNEY, DONALD, 23 years old, drowned while swimming in the lake.

MATZ, JOHN, six years old, body found floating in the north branch, into which he is believed to have fallen while playing.

STADELMAN, WILLIAM S., 28 years old, drowned in lake while swimming.

Unknown man, body found floating in lake.

ZINDA, JOHN, 7 years old, believed to have been drowned in north branch of river.

OKLAHOMA HEAT FATAL.

MALESTER (Okla.) July 17.—[Exclusive Dispatch.] Three persons died here today from heat prostrations, the thermometer having registered 100 deg. in the shade for the last two days. The dead: "Cocaine Bob," a highly educated hermit, who came here from New York and never revealed his real name; "Scotty" Davis, a tailor; George Crowder, stricken while working in a brickyard.

CHARLES GILLESPIE, REPORTER, TO WED MRS. HARTJE.

Mary Kenny Scott Hartje, former wife of multi-millionaire paper manufacturer, will become bride of young newspaper writer, who "covered" story of her sensational divorce proceedings.

MRS. HARTJE TO WED REPORTER.

GILLESPIE, WHO COVERED DIVORCE CASE, IS FINANCE.

Marriage Will Culminate Romance Begun in Court Trial of Sensational Case—Newspaper Man Leaves His "First Love" to Embark in Realty Business—Woman Gets Income.

[BY DIRECT WIRE TO THE TIMES.] PITTSBURGH, July 17.—[Exclusive Dispatch.] After sitting in the game of hearts between August Hartje, the multi-millionaire paper manufacturer, and his handsome wife, Mary Kenny Scott Hartje, whose marital troubles have filled the columns of the newspapers for the past five years with sensational disclosures, Charles Gillespie, a newspaperman who was assigned to the "story" when the trouble first broke, about five years ago, will soon supplant the millionaire and become the husband of Mrs. Hartje.

According to the terms of the divorce which were agreed upon outside court, Mrs. Hartje will receive from her former husband the income from \$100,000 during her life. A short time before the arrival at an agreement between Mrs. Hartje and her wife, Gillespie retired from the newspaper business and is now said to be engaged in the real estate business.

Hartje says he has heard of the arrangements for the marriage. Mrs. Hartje evaded the question by saying, "I have had enough, anyway. Mr. Gillespie is a distant relative."

The first information that Gillespie's associates had of an intimacy between Mrs. Hartje and himself came after nearly two years of the court proceedings, when Mrs. Hartje went to Florida and Gillespie joined her there.

HORDES VISIT SCENE OF CRIPPEN TRAGEDY.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, July 17.—The Hildrop Crescent residence of Dr. Hawley H. Crippen, in the cellar of which the mutilated body of a woman was found early last week, was visited today by thousands of Londoners. All day long the house was the center of attraction for great crowds of the curious, interested in the digging operations of the police, which have been renewed in the hope of finding some further clue to the crime.

Friends of Mrs. Crippen, known under the stage name of Belle Elmore, are convinced that the body which is now awaiting the coroner's inquest, will prove to be that of the missing singer.

During the latter part of the week there has been a remarkable series of murders in London, Newcastle and Cromer, and in every case the murderer has escaped.

According to the published statement of her married sister, Ethel Leneve, who is believed to have been Dr. Crippen's companion when he disappeared from his home in a hurried visit in her July 9, confessed the greatest anxiety over the possibility that she was not Crippen's legal wife.

After the announcement of the death of Belle Elmore, Dr. Crippen introduced the Leneve woman as his wife, although there has been no proof forthcoming so far that a marriage took place. The sister says Crippen informed

Ethel Leneve that he had just discovered that Belle Elmore was still living and that he proposed to go to America to clear up the matter.

NO TRACE YET OF CRIPPEN.

Inbound Steamers from British Ports Searched for Suspected Wife-Murderer.

[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, July 17.—Three inbound steamers from British ports were searched for Dr. Harvey Hawley Crippen today—the Cedric, from Liverpool and Queenstown, the Columbia, from Glasgow, and the Cleveland, from Hamburg, Southampton and Cherbourg—but on none of them was there a trace of the man for whom the police of the world are looking.

Letter a Crippen Clew.

LONDON, July 17.—One of the Sunday newspapers publishes the facsimile of an envelope of a registered letter posted to Crippen from Crocyden, a short distance from London, on the night of July 14. The paper says that the letter was delivered at Crippen's office in Cravenhouse and that the contents were withdrawn. The envelope, partially destroyed, was subsequently found some miles distant, at a spot in London hitherto unconnected with the crime, indicating that either Crippen is still in London or a confederate is receiving letters in his behalf.

EXPLAINS ATTITUDE

President Emphatic in Views.

Mr. Taft Refuses to Express Opinion as to State Candidates.

Does Not Consider It His Duty to Write Platforms, Either.

Ohio Conference Result Making Clear His Position.

[ASSOCIATED PRESS NIGHT REPORT.]

BEVERLY (Mass.) July 15.—President Taft today stated, with strong emphasis, the position he was taking on Republican State platform and candidates.

The President does not think he should be called upon to write party declarations in the different commonwealths or to name men for any of the elective offices. A President, he intimated, has a pretty big job on his hands when he undertakes to fulfill all the pledges in the nation platform and to bring Congress around to the same way of thinking.

As to planks in State platforms during the administration, the President feels that, unless they can be written upon what he has said, done since taking office, nothing could add in a personal way to help matters out.

The Ohio conference the last 10 days have served to bring out President's attitude. He was informed of the general tenor of the platform to be adopted at the Columbus convention, the latter part of this month, but he did not go into the details of the planks.

Under no circumstances, the President let it be known, would he express an opinion as to candidates. The platform in Ohio, it is generally acknowledged, will be a hard one. Mr. Taft feels a convention made up of 1500 delegates can be trusted to choose its own candidates in its own way.

Mr. Taft has been told name of an avowed candidate, Carmel Thomas Warren G. Harding and O. B. Frohman, a majority of the votes. This led to the opinion that a compromise candidate must be found.

GARFIELD CONSIDERED.

The friends of James R. Garfield are hopeful the delegates may go to him, but the State leaders, who are friendly to the administration and will write a strong endorsement of Taft and all his acts in the platform, declare Mr. Garfield cannot be considered. The only other candidate mentioned of Representative Nicholas Longworth. It is said, however, Longworth much prefers to remain in Congress and it will take great pressure to get him into the State fight.

Judge Reynold Kinkade of Toledo spent an hour or more with the President today. Judge Kinkade strongly urged for the gubernatorial nomination on some weeks ago, he let it be known that he preferred his place on the State bench.

Senator Burton is coming tomorrow. Senator Dick is still here and Mr. H. Ellis, chairman of the Ohio State committee, is within a few minutes ride. They all expect to have final word with Mr. Taft tomorrow.

The President today consented to make three speeches in Maine—Bangor, Bangor and Rockland—during his ten days' cruise in the northern waters. The Maine elections held September 12. Mr. Taft will speak at Bangor next Tuesday, Bangor Saturday and at Rockland Tuesday, the twenty-sixth.

SVENDSON CROSSES SOUND.

COPENHAGEN, July 17.—Svend the Danish aviator, flew in an airplane across the sound, a distance of fourteen miles, early yesterday morning. He rose at 4:03 and landed Malmoe at 4:34.

ITALIAN GETS TOO EXCITED.

Sets Off Giant Firecracker When He Saw Taft—Startles Sunday Crowd.

[BY DIRECT WIRE TO THE TIMES.]

BEVERLY (Mass.) July 17.—[Exclusive Dispatch.] So excited was Giuseppe de Vincenzo, an Italian, at the sight of President Taft on his way to church today, that he set off a giant firecracker and greatly startled the Sunday crowd in that vicinity. Neither the President nor his guards took notice of the occurrence.

Vincenzo was chased by the crowd for a short distance but was not arrested. He protested that he was only excited. The incident gave rise to a rumor in Boston that an attempt was made to assassinate the President.

NEW YORK, July 17.—[Exclusive Dispatch.] So excited was Giuseppe de Vincenzo, an Italian, at the sight of President Taft on his way to church today, that he set off a giant firecracker and greatly startled the Sunday crowd in that vicinity. Neither the President nor his guards took notice of the occurrence.

Vincenzo was chased by the crowd for a short distance but was not arrested. He protested that he was only excited. The incident gave rise to a rumor in Boston that an attempt was made to assassinate the President.

## BLOT BOBS UP AGAIN.

Fight Promoter Says He Has Signed Wolgast and Attell for Labor Day.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, July 17.—[Exclusive Dispatch.] Louis Blot, the fight promoter whose match between Kaufman and Langford was rudely broken up by the Governor's calling out the militia, has satisfied himself that the Governor will not repeat this performance with a carefully conducted ten or twenty-round boxing bout between lightweights or featherweights. Blot has had the Governor sounded by friends and declares that boxing matches will go all right under police protection.

Blot has a big open-air arena which he hasn't christened yet, so he has been busy, and declares he has signed up champion Wolgast and Abe Attell to box twenty rounds on the afternoon of Labor Day.

Attell has agreed to let Wolgast weigh in at 133 while he will weigh only 125. Abe is now featherweight champion and he is confident he can add the lightweight title to this. Certainly it will make a great fight, even if no knock-out occurs.

It is now easy, with good prospects of a speedy recovery. Col. Balm's doctors say his prostration was due to over-exertion.

## CONDUCTOR DIES IN ESPEE WRECK.

BROKEN FLANGE DITCHES TRAIN NEAR GIBSON.

Cars Pile Upon Each Other in Cut When First Leaves Rails—Traffic Is Blocked on Shasta Route—Crew Sticks to Engine and Narrowly Escapes.

[ASSOCIATED PRESS NIGHT REPORT.]

REDDING, July 17.—Conductor Fred W. Andree was killed, brakeman Charles J. Foley was bruised and an engine and twelve freight cars derailed in a wreck on the Southern Pacific Railroad a mile south of Gibson today.

A broken flange on one of two cars, which were being pushed ahead of the locomotive caused a derailment of the first car, and the engine and eleven remaining cars rapidly left the rails.

The wreck occurred in a deep cut and when the engine and cars piled upon one another, traffic from both directions was blocked.

Members of the wrecking crew called to clear the debris said the Shasta route would probably be blocked until noon tomorrow. The locomotive is badly damaged, and the cars are practically demolished.

Engineer John Thornton and Fireman Frank Baldwin had remarkable escapes from death. Remaining aboard the engine, they were able to crawl out of the cab unharmed. Neither was injured.

Andree's body was found two hours after the wreck occurred. Inasmuch as there are no marks on Andree's body, it is thought he was smothered to death by dirt, which covered him when he was found. His body was brought here on a light engine.

Trouble similar to that which caused the wreck today was responsible for a wreck near Delta a month ago. The northbound Shasta Limited is held at Red Bluff and the southbound Limited at Shasta Springs. Trains No. 14 and No. 16 are at Lamoine, and Nos. 12 and 15 are ordered to stop at Dunsmuir.

In a collision between two handcars on the Southern Pacific Railroad two miles south of here, last night, C. A. Woods and A. J. Bruley, signal men, were badly injured. One of Woods' legs will have to be amputated. The second car was loaded with Greek laborers, and none was hurt.

## GREWSOME FIND AFTER FIRE.

Parts of Two Human Skeletons Discovered in Ruins of Exposition Building in Portland.

[BY DIRECT WIRE TO THE TIMES.] PORTLAND (Or.), July 17.—[Exclusive Dispatch.] Parts of two human skeletons have been found in the ruins of the exposition building. From all indications the bones were those of men. One set shows plainly part of the upper jawbone. The teeth are large and had metal fillings at one time. Near this set were found three coat buttons. The second set of bones consists of several ribs and a piece of vertebra. These were found near the center driveway of the stables. The bones have been turned over to the coroner.

This accounts for five deaths in the fire. The charred remains of Jack Morgan were found the day after the fire. Fred R. Price who escaped through a wall of flames, died Thursday night at the Good Samaritan Hospital. The other three men are supposed to have been tramped when Price gave permission to sleep in the barn for the night.

## JOKE MAY PROVE SERIOUS.

Suit for Damages Started Against Boys Who Caused Illness of Timid Stockton Youth.

[BY DIRECT WIRE TO THE TIMES.] STOCKTON, July 17.—[Exclusive Dispatch.] Six youths of this city may find that a joke they perpetrated on a fellow citizen was not what they intended. A suit for \$200 damages has been brought against the youths to convince them that a joke should not be carried too far.

According to the complaint, the youths and a crowd of boys were engaged in an orchard, and, knowing that a crowd was coming, the boys framed a plan to scare them.

ing they told him a crazy man was at large in the orchard and that he was carrying a razor. They described the crazy man as being half naked. Then they decided it would be the part of wisdom to capture the maniac and solicit the boy's assistance.

Once the lad got out among the trees one of the party disrobed and took after Crowdon. A merry chase followed and every time Crowdon appeared on a new scene one of the others in waiting disrobed and would start a chase.

The result of the night's frolic was a siege of illness for the lad and a big doctor's bill.

## WANT MORE CALIFORNIA MULES.

Great Demand for the Animals in Fiji Islands—Big Profit in First Shipment.

[BY DIRECT WIRE TO THE TIMES.] STOCKTON, July 17.—[Exclusive Dispatch.] The demand for mules in the Fiji Islands is steadily increasing and orders have been received here for another thousand animals, which several agents are now purchasing throughout San Joaquin county.

Soma months ago, a sailing vessel was chartered and loaded with 1100 mules and sent to Fiji, at a great profit to the parties who handled the venture.

Horses do not last long on the islands, but mules prove of value as planters will not accept any other kind of work animal.

B. T. McCullough of Crow's Landing, in handling this shipment and has already received many applications from young men who wish to make the trip and assist in caring for the mules.

Some plan to return with the vessel, while others intend to continue the journey to Australia, Japan or China before returning.

## BOUGHT DEATH DELIBERATELY.

Montana Men Notified Coroner Where to Find Body and Kill Himself in Portland Park.

[BY DIRECT WIRE TO THE TIMES.] PORTLAND (Or.), July 17.—[Exclusive Dispatch.] Almost five days after William Frank wrote a letter to the coroner, telling of his intention to kill himself in the City Park, his body was found today. Thousands of Sunday visitors wandered obliviously through the park and the band played merrily while the coroner's men were removing the remains.

Frank made careful preparations for his deed. He first spread newspapers on the ground and lay down upon them, resting his head in the fork of a bush, then placed a revolver in his right temple and fired.

The spot where the suicide was committed is secluded and covered with brush. The delay in discovering the remains is due to the misdirections given by Frank in letters written the day before the suicide.

In his letter to the Coroner Frank gave ill-health as the cause of his intended act.

The coroner made a search but did not find the body.

Frank's home is at Kallispell, Mont.

## DREAD DISEASE CLAIMS TWO.

Acute Anterior Polymyositis Rampant in Oregon Town—Children Immune.

[BY DIRECT WIRE TO THE TIMES.] LA GRANDE (Or.), July 17.—[Exclusive Dispatch.] Acute anterior polymyositis is rampant in La Grande. Two adult victims have been claimed in one day by the dreaded disease, which State and local physicians cannot explain in detail.

The first victim was Gordon McClellan, a young man who came here from La Crosse, Ida., who was sick but a few days before he died. Death follows terrific and excruciating pains.

The second victim was Arlo Meyers, aged 20 years, and son of Mr. and Mrs. Harry U. Meyers, who died an equally frightful death. A third adult victim is very low and several other cases are reported.

Strict quarantine has been established.

The disease resembles typhoid fever, but seems to be fatal with adults only. Several children have had it but apparently recovered during the past two months. The speed with which it claims victims has alarmed medical circles here. Two have died in Umatilla county the past week of the same disease. It is said by physicians to manifest itself in inflammation of the spinal cord.

## MANY ASSAULTS BY STRIKERS.

Portland Record Is Twenty-two Attacks on Non-Union Teamsters. Many Not Reported.

[BY DIRECT WIRE TO THE TIMES.] PORTLAND (Or.), July 17.—[Exclusive Dispatch.] Twenty-two attacks on non-union teamsters by strikers occurred in Portland last week, according to police records. That there were at least a dozen others that were not reported to the police is the statement of officers of the Employers' Association.

As the strike wanes the violent encounters between union and non-union men appear to have increased in inverse ratio.

Nine arrests were made of strikers and three of non-union teamsters during the week just ended. Five strikers were convicted in the police court of assaults on non-union men.

A number of complaints have been made to Chief of Police Cox of alleged reluctance on the part of patrolmen to arrest the attacking union men.

The end of the week found all freight cleaned up, and with all teams in operation, according to President Randolph of the Employers' Association.

## CURRY PARTY HAS ACCIDENT.

State Secretary on Auto Campaign for Nomination for Governor Has Set-back.

[ASSOCIATED PRESS NIGHT REPORT.] SACRAMENTO, July 17.—L. A. Norton, clerk in the office of Secretary of State Curry, who is on a tour with Mr. Curry in the latter's campaign of the Coast counties in the interest of his candidacy for the Republican nomination for Governor, yesterday telephoned his wife from Eureka that the party had met with an automobile accident. Worried, Mrs. Norton today communicated with her husband by telephone and was told that no one was seriously hurt by the accident.

A report that cannot be traced is to the effect that the Curry automobile went over an embankment.

## MILLER, POET, IS HOST.

Sierra Versus Writer Tells Reminiscences of Early Days at His Oakland Heights Place.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, July 17.—[Exclusive Dispatch.] Joaquin Miller, poet of the Sierras, gave a Mexican bandit lunch yesterday to sixty members of the Sequoia Club at his home on the heights back of Oakland, where Fremont first saw the Bay of San Francisco and named its entrance the Golden Gate.

There was much speculation over the mysterious lunch, but it opened with cocktails mixed by the poet, who claimed the recipe came from Fremont and Walt Whitman. Then came barbecued beef and bacon and onions in Mexican style, all washed down with California claret, served in a large three-gallon demijohn.

After the luncheon, Miller told of his first visit to the present home when he surprised a black bear eating the carcass of a cow that it had killed.

This looked like a promising place for the poet who wished to live a simple life, so he bought two acres. Since he has added many acres and planted thousands of trees. He has raised a pyramid to Moses, built a Browning tower of rocks and a monument to Fremont.

Poet Miller, before he led his guests up the hill to these monuments, warned them that no one who had violated any of the Ten Commandments could climb with him to Moses pyramid. But every one went up the trail.

## JAPAN MAKES NEW TARIFF.

German and English Importers Are Greatly Alarmed—Americans Not So Greatly Affected.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, July 17.—[Exclusive Dispatch.] Marcus Isaacs, cashier and chief clerk of J. Witkowski & Company, importers of Yokohama, is here from the Orient. He says big foreign merchants are much excited over a proposed new tariff, of which printed copies are now being given to all the importing firms in Japan.

The tariff will take effect in 1911. It is highly protective, and, as in the case of condensed milk, proposes an increase of 400 per cent. In other cases the increases are even higher and affect everything imported by foreigners.

The greatest increases are on importations of milk, machinery and soap. Isaacs thinks that if the proposed tariff should pass it will mean the death blow to many of the largest importing firms in Japan. Strong protests will be registered against the measure by the merchants. Although the American firms feel the force of the increase, yet the largest sufferers will be English and German importers.

## COLLISION INJURES SEVEN.

Head of Seattle Office Building Will Probably Die as Result of Auto Accident.

[ASSOCIATED PRESS NIGHT REPORT.] SEATTLE, July 17.—Seven persons were injured, one probably fatally, when an automobile driven by W. A. Briggs, and carrying a party of friends, ran into another machine

driven by Henry Mayamoto, a chauffeur, today.

Briggs, who is superintendent of an office building, sustained a fractured skull and is not expected to survive. The others who were injured are: Mrs. W. A. Briggs, badly bruised about head and body.

George Wallworth, hand and ankle sprained.

Mrs. Wallworth, head and face bruised. Internal injuries.

Allen Wallworth, aged 7, left shoulder broken.

Miss Helen Finnigan, 14 years old, nose broken, face and head cut.

Henry Mayamoto, body bruised.

Miss Helen Finnigan, whose home is in Devil's Lake, N. D., has been visiting Mr. and Mrs. Briggs, residents of Seattle. The Wallworths are from Appleton, Wis.

## SLOPE BRIEFS.

Enormous Fire Losses in Canada.

VANCOUVER (B. C.) July 17.—Forest fires still continue in the neighborhood of Nelson, B. C., where the loss has been enormous. The Arrowhead Lumber Company alone has suffered a loss of a million dollars.

## SURVIVES CHINESE RIOTS.

Teacher in Hunan Province Escapes With Wife and Child—Tells of Terrible Experiences.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, July 17.—[Exclusive Dispatch.] T. J. Giffin, teacher in one of the provincial colleges at Changsha, in Hunan, arrived today on an oriental steamer with his wife and child. He escaped from his home in the night in terror and confusion to a steamer on the river and fled to Hongkong.

Two buildings, one on either side of his place, were ransacked and burned by the rioters, who stormed through them with crowbars, first smashing every bit of furniture, giving vent to their pent-up wrath against the "foreign devils."

Giffin gives three causes for the riots: First, the cornering of the rice supply, which advanced prices; second, the importation of mechanics from the adjacent province; and, third and strongest, the anti-foreign and anti-official sentiment. All over town were posted placards in glaring letters inflaming the ignorant people by these words: "Kill the officials! Smite the foreigners!"

Giffin thinks the damage done in the riot will amount to about \$50,000.

## SMALL FAVOR; GREAT REWARD.

Poor Teamster Whom Clerk Aided Becomes Millionaire and Remembers Benefactor.

[BY DIRECT WIRE TO THE TIMES.] 'DONALD (Pa.) July 17.—[Exclusive Dispatch.] A little kindness shown by a clerk to a poor teamster here twenty years ago during the oil excitement in this field has borne great fruit. The poor teamster, James Ennis, became a millionaire and has just died at Corpus Christi, Tex., leaving a will in which he stipulated that his wife shall have the use of the fortune during her life, but at her death it must fall to George Rankin and his wife in equal parts.

Rankin is the man who, as clerk in a store here years ago, extended Ennis, who had not a cent, credit on several bags of horse feed.

## HAS TUBERCULOSIS PREVENTIVE.

PITTSBURGH, July 17.—[Exclusive Dispatch.] The State Board of Health has just completed experiments in preventing tuberculosis which, it is asserted, will, in time, completely stamp out the disease. The announcement of this discovery was made today by Dr. S. G. Dixon of Philadelphia, State Commissioner of Health. Dr. Dixon said the preparation would be used to inoculate both sexes when quite young. It is along the same lines as the lymph of Dr. Koch, though three times as powerful.

## MINISTER SHERRILL RECEIVES.

BUENOS AYRES, July 17.—American Minister Sherrill gave a brilliant reception last night to the American delegates to the Pan-American Congress and the members of the International Students' Congress.

WHEN you come in and see the Bootery Smart Shoes for Women at \$2.85 and \$3.85 you'll realize better than we can tell you that the interest in this sale centers in the goods we're selling out, not in the price.

ANGELS SNARE  
HOGAN'S GOAT.Cinch Series by Grabbing  
Afternoon Game.Morning Struggle Goes to  
Ten-Inning Draw.Carson Is Hammered to All  
Corners at Chutes.

Los Angeles, 2; Vernon, 1.  
Los Angeles, 2; Vernon, 1.  
The two games yesterday were products of only one decision, and that went to the Angels. Dillon's men and the Hooligans fought through ten innings at Vernon in the morning, and when time was called by Umpire McGreevy, at 12:30 o'clock just as the eleventh period was opening, each team had two tallies to its credit.

At Chutes Park, in the afternoon, the Angels had little trouble in disposing of the Hooligans, and after the first inning they led all the way.

The result of the day's work gives the series to the Dillonites. They have won four out of five, and the contest today will wind up the series.

Crieger, Dillon's Sunday-morning heavy, was on the mound in the forenoon at Vernon, and he pitched splendid ball. Against him was pitted Willett, and the best of Hogan's men could do was to finish second, but he managed to hit Willett hard, but he managed to keep the bingles pretty well scattered. On the other hand, the Vernonites succeeded in cashing in half of their stick work.

LINDSAY GETS HOMER.

Lindsay, the Vernon shortstop, surprised everybody, including himself, by swatting the ball over the left-field fence in the eighth inning, breaking a tied score. Lindsay is not among the heavy hitters, and when he came up to bat it never dawned on the most ardent rooter in the village that with one poke the little shortstop was going to put the Hooligans in the lead.

The morning contest was by far the better game of the two. It was a nip-and-tuck affair throughout. In the first period the Hooligans got a man over the pan, and then there was nothing doing in the scoring line until the seventh, when the Angels took the score. In the eighth came Lindsay's homer, and it looked as if Hogan was coming out on top. But in the last of the ninth Dillon's men garnered three hits that yielded a run. Each team got a bingle in the tenth, but neither had a chance to score, and when the time limit was reached, both were ready to quit.

An unusually large Sunday morning crowd turned out, and the bleachers sagged in the hot sun. But there was no doing to make them forget the heat. Several times it looked as if the Angels were going to have a big inning, but fast fielding by the Hooligans kept the Angels keyed down.

HOOIGANS START WELL.

In the first period good luck enabled the Hooligans to get a man home. Carlisle bunted and Crieger managed to get his fingers on the ball, but that was all. Stovall flew out to Dillon, and then Howard booted Roy Brashear's grounder, and throw to Dillon, during which mix-up Carlisle reached the pan.

Dillon started the work in the seventh that tied the score by leading off with a two-bagger to center. Murphy sacrificed him along, and after Roth fanned, Delmas hit a bad one at Hurrell and "Cap" scored.

The Hooligans nosed to the front in the eighth when Lindsay came through with his four-sacker. The next three men were easy outs.

Willett's worst bumping was received in the ninth, when three singles and a sacrifice fly were registered by the Angels. Howard led off with a clean swat and Dillon did likewise. Murphy hit a long fly to Carlisle and Howard reached the plate from third after the catch. When Roth followed with a Texas leaguer to left, Hogan's chances seemed slim, but Delmas struck out and Dil on was caught stealing third on Del's last strike.

Both teams got a man on base in the tenth, but neither had a chance to score. Only a few minutes' playing time remained when the Hooligans went in to bat at the beginning of the eleventh, and he it was evident that the frame would not be completed the men "monkeys" along until McGreevy stopped the game.

AFTERNOON STRUGGLE.

The grand stand and bleachers at Chutes Park were packed in the afternoon, but at that the attendance was no greater than is customary on Sundays. The hot weather probably kept a good many fans away.

There was plenty of action in the game even if "class" was missing. The Hooligans were out of the running from the start, being forced to make the short end of a fair-sized swatfest. Carson was hammered for ten hits in the first five innings, and the four runs the Angels grabbed during that time were more than enough to down the Hooligans. Tozer was wild, walking five men, but the Vernonites were unable to hit him safely to any great extent.

"Tough work" gave the fans opportunities to intersperse a little hissing with their rooting. In the third Dillon knocked Brown down while trying to reach the plate. The Vernon catcher was badly shaken up. When "Cap" made a mad dash to the plate he received an awful inshoot in the back. In the next inning Stovall, after he hit the ball, the first man up, jumped into the base with both feet. It looked as if he was trying to ram a bunch of spikes into "Pop's" foot.

HEAVY HITTING.

Carlisle got the longest swat of the game, in the ninth inning, when he hit a triple to center right field and completed the circuit when Howard threw low to third in relaying the ball from Bernard. Dillon got two doubles and Delmas gathered three singles, giving him a total of six bingles for the day. Howard also got three singles.

The Hooligans opened the game by getting a run without a hit. Tozer was unsteady in the first and walked two men. Carlisle, the first man up, was passed along to first and after Stovall flew out to Roth, Kitty Brashear was hit by a pitched ball and Brother Roy walked filling the bases. Coy sent up a fly to Murphy and Carlisle galloped home from third. Stovall forced Roy Brashear at second.

and home. Murphy flew out to Coy and Lidsay disposed of Roth.

After the first the Vernonites drew blanks until the ninth, when Carlisle came through with his triple and reached home. Meantime the Angels added three runs to the lead. They had secured in the first frame. In the third Delmas brought Howard home with a single and in the fourth Bernard, after hitting safe and stealing second, rang the bell when Howard sent up a high fly into right center under which nobody was able to get.

The Angels' last tally, in the seventh, was the easiest kind of pick-off. Dillon opened the period with another two-sacker to right. Murphy sacrificed him to third and then "Cap" trotted across the pan on a wild pitch.

Summary.

Three-base hit—Carlisle. Sacrifices—Coy, Bernard, Smith. Dillon. Struck out—by Carson, 1; on Tozer, 2. Double plays—Carson to Stovall, Lindsay to Roy. Wild pitch—Carson. Time of game—1h 50m.

Notes of the games.

With Dillon on first in the second, Murphy knocked a liner into Willett's glove and the double play was easy. "Pop" Dillon nabbed Willett's fly in the third after running a long fly on the rough country in right field.

The bleachers were packed. It was hot and the gentle seephy off the packing-houses did not improve the situation.

Col. Brooks and Henry Berry, the rival magnates, chummed together in the grand stand. Both were so undignified as to remove their coats.

Roth made a great stop and throw of Roy Brashear's grounder, in the fourth.

Earl Rogers was among those present. Coy robbed Howard of a hit by snaring his long fly after backing up against the right field fence.

Dillon walked the first two times up. The first real excitement happened in the fifth. Delmas was on second and two were out. Crieger rapped out a single to left and Del tried to make home. Carlisle made a beautiful peg to the plate and Hag got the ball right on to the runner, ending the period.

The bugs went wild. Howard made a one-handed scoop of Willett's grounder in the sixth. Dillon had twelve put outs in the first six innings.

"Pop" surprised the fans by making an error in the seventh. Kitty Brashear hit to Roth, who made a good throw, but the ball slipped out of Dillon's glove. But Kitty was doubled up by Roy a minute later.

Hag pegged beautifully to the bases, but Delmas stole second on him in the seventh.

Delmas got three hits the first three times up, the last one scoring Dillon and tying the score.

Lindsay's homer was a big surprise. Delmas covered lots of ground at short. He threw out Hogan and Dil on was left in the eighth after making one hand stops near second.

Stovall broke another bat when he grounded to Howard in the ninth. The Hooligans had twelve put outs in the first six innings.

Crieger registered his first strikeout in the ninth. N. Brashear fanned.

In the tenth McGreevy announced that no hit inside the grounds would be good for more than two bases. A fringe of fans were standing about the fence.

Brown, who batted for Hogan in the tenth, knocked a foul over the left field fence. Then he was thrown out by Delmas, ending the inning.

Carlisle, the first man up, after drawing three balls and two strikes, knocked four fouls and then walked.

Bill Tozer was pretty wild in the first. He walked two men and hit Kitty Brashear.

Pete Daley hit the first ball he got right on the nose and sent it safe into left field in the first.

Carson looked worried in the first after two singles and a double had been made off him. But with two men charged up against him and only one out he braced up and Murphy and Roth flew out.

It again looked bad for Carson in the second but he brought the inning to a close by starting a double play. Two hits, a walk and a sacrifice had filled the bases. Bernard popped a little bunt that Carson by making a lunge managed to get his right hand on and he threw Delmas out before Del could get back to first.

Howard's hunt in the third was executed so quickly that he beat Carson to the bag. Kitty had run up to field the ball.

With the bases full in the third Roth flew to Carlisle. Howard was on third but he didn't try to make home. He was afraid of Carlisle's whip. "Cap" ran into Brown and knocked him down when he tried to get home on Smith's

grounder to Delmas, in the frame; but he was out.

Dillon made several fine snags of high throws.

"Pop" got an awful bump in the ribs with an inside ball in the fourth. He was doubled by Roy Murphy on the latter's grounder to Lindsay.

Stovall was hissed for jumping with both feet into first in the fifth. The fans thought he was trying to spite Dillon, but afterwards he said he was only making a desperate attempt to beat Delmas to first.

The Brashear boys drew passes in the fifth but two men were gone and Coy sent up a foul to Smith.

The sixth inning was the first respectable period Carson had. Daley fanned, and Bernard and Howard went out on easy grounders.

Delmas brought the Hooligans' seventh to a close by making a fine pickup of Roy Brashear's grounder and getting Kitty at second.

Dillon certainly had his batting eye working. His two doubles were mighty swats.

Carson struck out Delmas and Smith in the seventh, after Dillon had scored on the Vernontite's wild pitch.

Daley was caught off first twice. The sixth inning was the first respectable period Carson had. Daley fanned, and Bernard and Howard went out on easy grounders.

Delmas brought the Hooligans' seventh to a close by making a fine pickup of Roy Brashear's grounder and getting Kitty at second.

Dillon certainly had his batting eye working. His two doubles were mighty swats.

# The Yamato, Inc. Grand Opening Sale

Owing to the unusual demand for "The Yamato's" choice selection of Japanese goods, which is the largest on this Coast, to accommodate the increasing demands, it has become necessary to utilize two additional stories and put in an elevator.

These alterations and enlargement of the big store, together with our new, modern show window, which has just been completed.

As a little remembrance of this occasion we are going to give away \$2000 worth of our choice goods this week and we take pleasure to present you a souvenir in a very interesting way. Every customer with a 25c purchase or more during this sale will get a coupon with a number on same, which will have a corresponding number on our souvenir table on the third floor. Everyone will get something. Visit us early to get best things.

## Third Floor---Take Elevator

### Art Bamboo Furniture Dept.

Also Toys, Suit Cases and Lunch Baskets

Our Bamboo Furniture Department, after a great deal of study, has produced the most artistic and durable of furnitures.

This is just what you need for your summer cottages and bungalows.

We offer you during this sale a discount of... We make a specialty of designing and making special furniture to your order. SPECIAL—Shopping or lunch baskets. Size 13x10x5....

15%

59c

## Second Floor--Take Elevator

### China Department 1/2 to 1/3 Off

"The Yamato" design has a reputation all its own, the mark of exclusiveness.

Tea Set or Kagaware

### Art Department 25% Off

Hand-carved furniture—Embroidered screens; all kinds of artistic baskets; also every line of art goods, including brass and bronze.

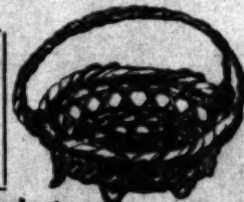

#### Special Feature On Second Floor

##### Hour of Opportunity

10 to 11 a. m.—4 to 5 p. m., and every day during sale—

\$3 to \$1 values of general assortment of our goods on Opportunity Table for...

25c

## Main Floor Will Be Devoted Exclusively to Dry Goods

### Japanes Cotton Crepes

Beautifully figured or plain dress crepe, in any shade; 30 in. wide. All wash guaranteed; 25c to 35c quality.

Reduced to, per yard 17 1/2c

# GREAT BANKRUPT LINEN STOCK

less time now than ever and want to make good again. This is your opportunity to get new linens which you use the year round at 1/4 to 1-3 their value. We are Going to Sell for Anything We Can Get. Our Profit is Commission.

*The Yokohama Specie Bank, Ltd.*  
San Francisco Cal. July 2, 1910.  
The Yamato, Inc.,  
Los Angeles, Cal.  
Gentlemen:—We beg to advise you that we accept your offer for the disposal of the balance of the last Takemura Bros. bankruptcy goods amounting to \$10,000.00. We have retained to Olan Mill & Co. of this city, our custom broker, as per your instructions, the permission paper of custom house for the cases of linen goods—part of the goods held as security for loan made to F. Takemura Bros. bankruptcy, which was delayed for delivery on account of the examination of custom house. Under the same contract we made last month, we leave you the full authority to dispose of the same in any way and at any price advisable to us providing to close out the same on or before August 1, 1910, which will enable us to declare second dividend of the bankruptcy.  
Yours truly,  
TAKEMURA BROS. BANK, LTD.  
J. Takemura

## THE OIL INDUSTRY. PRODUCTION IS SHY FOR JUNE.

Under May Figures by Over  
Half-Million Barrels.

Big Seeps Install Heating  
Plant in Ventura.

Large Area Proved Up by  
Western Minerals.

The production of oil in the California fields for June was 541,677 barrels less than the production for May. This is due to the fact that the operators who have been scared at the prospect of overproduction.

The May production of all California fields was 1,712,312 barrels; June production 6,630,638 barrels, giving a shortage for June of over a half million barrels. The daily average for May was 231,365 barrels and for June 221,021. In the San Joaquin Valley fields Kern River and McKittrick alone show an increased production. Coalinga, Midway and Maricopa show an appreciable falling off. The agency has figured the production of the Lakeview well at 40,000 barrels a day, allowing a considerable percentage for evaporation and seepage. Where possible many big operators have curtailed their production because of the congested condition of storage and pipeline. In the table below the figures for Coalinga are approximated, but for all other fields they are official and final.

The detailed statement follows:

| SAN JOAQUIN VALLEY FIELDS. |                  |                  |
|----------------------------|------------------|------------------|
|                            | May.             | June.            |

Total shipments 1,458,481; total storage 690,303.  
Producing wells in South Field 1.

### WESTERN MINERALS. PROVING UP TERRITORY.

The Western Minerals Oil Company, operating 4000 acres in the Maricopa-Midway field, has just proven a large section of territory by getting oil in the center and east end of its holdings on the Maricopa flats. The company's lands embrace a strip remote from the producing wells of the field, and at the time it started operations, a little over a year ago, it was strictly without redoubt. Two wells had been sunk on the extreme east end, and when the company recently struck a well, it proved the entire territory and made its holdings of 4000 acres valuable oil land.

On the west end of the property two wells have been pumped out and on for twelve years, producing 16 or 20 barrels a day at a depth of 400 feet; on section 28, near the south center, there is an old well which is capable of producing 7 or 8 barrels a day of lubricating oil, while near the center on the line near sections 31 and 22 a new well has just been drilled into oil at a depth of 1300 feet, with every indication of becoming a heavy producer. The well has been cemented off, but the well has never been put on the pump. In the center of the south half of section 25 a well has been drilled into oil at 1125 feet. This is now down 1225 feet, with 66 feet of oil and the drill still in oil. At 1125 feet the oil without redoubt was suitable for lubricating purposes, and a commercial flow could have been obtained. At 1225 feet the oil is of a greenish cast and gravity, and is thought to be the best refining oil that has been found in the State.

On the north half of section 17, the Western Minerals has a well down 450 feet, and wells are being started on the north half of section 22, the north-east and south-west quarter of 24, and the north-east quarter of section 25. The holdings of the Western Minerals line up perfectly with the main development of the Midway and Sunset fields, and the development has proven that practically every foot is oil-bearing and valuable. The company will keep two strings going all the time, and will devote itself for a time principally to proving up its territory. One-half of the ground has already been patented and the other will be as rapidly as possible.

### BIG SEEPS PLANS. INSTALLS HEATING PLANT.

The Big Seeps Oil Company has just installed a heating plant at Brownstone, Ventura county, on the Southern Pacific road for heating oil for road use, and is closing contracts for a large amount of oil for this purpose in Ventura county. Owing to the fact that the company has no heavy freight to pay, the grade of oil nets it 20 cents better than the average price. The company has also just completed the installation of a telephone system connecting its camp with the office in this city.

A. F. Johnson, manager of the Big Seeps, left Friday evening for Ventura county to contract for a large quantity of oil. The Big Seeps has finished another well at a depth of 900 feet, and expects to put it on the pump within the next few days. This well is being drilled by the Big Seeps, and will add 5000 barrels a month to its production. All of the production is contracted for in Los Angeles or in the counties immediately

surrounding the property, the average price being \$1 per barrel.

The Big Seeps was organized in 1926, and has been developed more with a view to putting it in shape for big production than for any immediate production on a small scale. It has 1200 acres of good land on the Big Seeps River nine miles from Fillmore.

### PROGRESS.

## UNUSUAL MINING ACTIVITY IS NOW ON IN OLD MEXICO.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

MEXICO CITY, July 14.—Mining in Mexico is taking on new life and receiving impetus from varied sources. The important thing of all is the delving for gold, silver, copper, lead and the base metals in countless camps of Mexico has been rewarded by abundant success, but added to this consideration is the fact that systematic efforts are being made to herald the republic's resources abroad and such publicity is already bearing fruit in substantial investment of foreign capital.

Beneficial results are expected to flow from the coming gathering of mining and oil men from all sections of the continent at Los Angeles. Several of the most influential operators of this country will be present at the congress, and will take with them many interesting data in proof of Mexico's alluring opportunities. It is believed many of the delegates from various commonwealths of the United States will continue their journey to the country after the adjournment at Los Angeles.

Mining men from everywhere will be here for the centennial festivities, which will continue throughout the month of September. To provide ready means of information as to the mineral resources of Mexico, the government has established a bureau in charge of officials speaking several languages.

Recent consummations of deals for transfer of mines involving millions of dollars have proved an effective inducement among foreign investors, and backing this fact is the mineral success already achieved by foreigners who made ventures in undeveloped areas.

Much new territory is being opened up by the building of new railroads, extensions of old lines. In the northwest of the republic the Southern Pacific Railroad of Mexico, the Mexico Northwestern and the Kansas City, Mexico and Orient are shipping regions of boundless production possibilities, but formerly handicapped by isolation. Vast improvements in transportation and production facilities are being made in all the mining States of the Pacific Coast, in the central and northern regions of the republic and across the extreme southeast as far as the Guatemala line, soon to be crossed by the Pan-American Railway, important link in the chain which will give Central America its first outlet by rail to the northernmost centers of the United States and Canada.

### OFFER OF SCHOLARSHIP.

Rejuvenation is resulting, moreover, from the slight advance in silver, with prospects of a greater rise to come, and in the development of large reserves of gold ore in camps previously thought to be of the silver class and practically worked out. Another little straw that shows the wind's direction is the offer of a scholarship in Columbia University by the Alumni Association in Mexico, of that institution, to a student who will be granted annually, providing exemption from tuition charges in Columbia College, the school of mines, the school of engineering, or the school of law, or any of the three non-professional graduate schools of the university. Several of the most prominent mining men and engineers of Mexico, from Columbia and they predict that the annual scholarship will often go to a student in the school of mines.

Local capital is largely interested in the reopening of the Silverado, one of the most promising properties of the camp of Topo Chico, near Monterrey, Nuevo Leon. The main lead, exceeding three feet in width above and in encouraging quantities at a depth of ninety feet and the management is convinced that higher values will be encountered on lower levels. The workings have been idle for many months. Various camps of the State of Sonora, a generous producer for centuries, and apparently without its greatest era, are enjoying mild booms. Many of the old mines are recording increased tonnages and blocking out new prospects. A year ago some life-sized stamped to virgin territories have this year opened new bonanza districts that promise to rival the most famous of the State.

Through the one station of Aguas Prietas, a comparatively limited region of Sonora is shipping an average of about 400 carloads of ore per month to the smelters across the international line, some of the principal consignors being the Nacozari, El Tigre, Monte Cristo, Chihuahuita, El Encino, Santa Maria, El Carmen, San Ygnacio, La Sonora No. 1, Union and La Purica. Counted in Mexican currency the value runs about \$1,000,000. Copper, 100,000 silver and 345,000 gold.

The main shaft of the Montenegro mine, northwest of Nacozari in Barranca district of Sonora, is about 150 feet on route to the 600 level. On that property, among whose celebrated neighbors are the Chiquila, Rancharon and El Carmen, more than 40,000 feet of development work has been done, opening large bodies of pay dirt. Not far distant the group of mines developed claims from which the owner, Herli Waters, has just shipped 200 sacks of ore that ran into fabulous figures.

Plans are still shaping for the installation of a big power plant upon the domain of El Tigre mine, Sonora, details not having been worked out yet. If there occurs a hitch in negotiations for its own equipment arrangements may be made for transmission to the Tigre of electric energy from the Copper Queen plant at Douglas, Ariz., fifty miles north. The Copper Queen power equipment furnishes energy for the company's big smelter and for the street railway of Douglas. El Tigre is also figuring upon the building of a long adit or tramway to facilitate the more economic handling of its ores. The Tigre will furnish power to the Cincos de Mayo, Roy and some other nearby mines.

owns its own six-inch pipe line from the wells to Brownstone on the railroad, and has built 6000 barrels of steel tankage. It has put down two wells and keeps two rigs in operation. Some time ago it took over the Union Consolidated, with three wells, and is cleaning these and getting them in shape for larger production.

Christopher found an old shovel of the type of 1875, which is thought to be one of the shovels used by the Mormon locators in placing the old location monument. This is a relic of the miner's candlestick, was found near the original locating monument, and has been grided, and will be hung in some suitable location by Mr. Christopher. These early Mormons took out some rich ore from the Johnnie, and later locators working an old Bryan mill ran ore that went 25 or better.

### STRIKE ON THE PIONEER.

A letter recently received from the superintendent of the Pioneer Consolidated Mines, in the San Francisco district in Arizona, reports the opening up of a streak of 100 ore on the 100-foot level. This started with a seam of about twelve inches, and at the bottom of the streak being sunk on it, has widened out to eighteen inches.

This is very encouraging, as it is similar to the finds of rich ore in the Gold Road and Tom Reed properties, and carried out the theory of Carl Schader, who controls the property.

### LETTERS TO THE TIMES.

### Is She an Entity?

LOS ANGELES, July 14.—[To the Editor of The Times:] I have a kick. Not a monstrous one to be sure, but nevertheless a kick. I have been snubbed—wickedly, maliciously snubbed, and—because I am a woman! I started to write that "woman" with a capital letter, but feel too small to do it.

I have lived in California about seven years—several years—or times, I should say, without being hit by a lightning bolt. I have owned property in and out of Los Angeles, have transacted all my own business, have paid my taxes, sent my son to school, loaned and borrowed money, and have been a member of the Public Library issued to me in my own name, with my name in both the city and telephone directories. Now, some time ago, I accidentally "got married" again. That part of it is all right, it could not be helped, but here's the rub. I went up yesterday to take out a card to the library, having given some up upon a short absence from the city, and I find that I am no longer an individual, but simply an accessory, or rather a shadow, of my husband. I was ordered to go home and have my husband sign the card of admission. I did not ask which husband of the lot should sign it, but trotted away meekly, like a nice little well-behaved lamb.

Now, dear sir, I am not a suffragette. I have never found that flailing eyes and red lips and the sparkle of life, will bring to women almost anything they want, but what I want to know is what has happened to me? I still own the same property, and the "bum" mining stock, still pay my taxes and bills, and draw my own check to the bank, but I am no longer an individual, and I tell me why I was so ruthlessly ordered to run home and wash my face.

### Farmer Hitches Daughters to Plow.

If you were a young girl, around 14, how would you like to be hitched like a horse to a garden plow and be compelled to drag the plow across the field and back again, night after night?

That's what two Norfolk girls are doing these hot nights. Three daughters of a market gardener north of the city limits are made to plow the field at night, and the driver, who is a man, is doing these hot nights. Three daughters of a market gardener north of the city limits are made to plow the field at night, and the driver, who is a man, is doing these hot nights. Three daughters of a market gardener north of the city limits are made to plow the field at night, and the driver, who is a man, is doing these hot nights.

During the day the girls sell garden truck from house to house, and in the evening they are made to plow the field. The plow harness when they get home after the day's work upturn in the broiling sun.—[Nebraska State Journal.]

Teachers Examinations.  
The Los Angeles County Board of Education will examine within a few days the Elementary and Special Certificates, the Olive Street School, between 4th and 5th streets on Olive street, Los Angeles, Cal., beginning Monday, July 25, 1910, at 8:30 a.m.

### GOOD ORE UNCOVERED.

The Johnnie Mining and Milling Company has uncovered some good ore below the 800-foot level. A drift has been run from this level 80 feet, and the crosscut will be extended 100 feet more to tap the big, rich ore chutes. Johnnie values have shown a consistent improvement with depth, both by actual mill run and assays. They are milling ore averaging from 35 to 45, gold and silver, per ton. Most of the product runs also about 10 per cent copper. A 200-ton mill will be installed at the 800-foot level, and the mill will be in operation by the end of the month.

President L. J. Christopher states that the plant is being erected on a hill overlooking the mine, and that the mill will be in operation by the end of the month.

Arrangements have been made by the Cincos de Mayo to ship its ore to the smelter at San Francisco and to implant at the diggings a 100-ton mill. Mormons who have settled the country around Morongo have contracted to haul the grit to the nearest station, Yuma. High grade ore will be sent to El Paso. Recent shipments of ore from the Roy mine run 2500 and 3000 ounces silver to the ton. The Roy is shipping concentrates to the Selby smelter.

Proved tonnage of pay truck in the Indiana Sonora is double the estimate made at the time the property was secured by the present owners. Interests from the Phelps-Podger crowd last October, the deal having been made for the 400,000 shares of the Indiana's capitalization by exchanging

Christopher found an old shovel of the type of 1875, which is thought to be one of the shovels used by the Mormon locators in placing the old location monument. This is a relic of the miner's candlestick, was found near the original locating monument, and has been grided, and will be hung in some suitable location by Mr. Christopher. These early Mormons took out some rich ore from the Johnnie, and later locators working an old Bryan mill ran ore that went 25 or better.

# BERNACLE At the Churches Yesterday

REV. DR. HUGH K. WALKER.  
IMMANUEL PRESBYTERIAN.  
ENLIGHTENED BY THE  
GREATNESS OF CHRIST'S  
KINGDOM.

ONE of the largest congregations in the history of Immanuel Presbyterian Church assembled yesterday to extend a welcome to its pastor, Dr. Hugh K. Walker, who has just returned from a tour around the world.

Dr. Walker spoke very briefly concerning the trip, deferring a more extended account to the evening lectures which he will deliver on places and things of general and ecclesiastical interest which he has seen. A special song service of welcome was arranged by the congregation as a pleasant surprise for the returned pastor.

Preaching on the text: "The eyes of your understanding being enlightened," Dr. Walker said, in part: "It is said to be blind—perhaps the saddest of all misfortunes in the realm of physical sense—and it is almost as sad to have eyes and see not. The man to whom a yellow primrose is only a yellow primrose, the man who views a landscape with no perception of its real beauty; the man who stands by the sea and cares naught for its magnificence and grandeur, who sees a ship sailing proudly into harbor and thinks only of the commercial value of its cargo—all these are blind to the visions that feed the soul and enchain the heart."

"But St. Paul was thinking of a higher vision still—that which dwells in the things of the spirit, and has made poets and prophets in higher realm than those of a worldly or a Whittman. He would have the Ephesians, who had heard from their earliest years the cry, 'Great is the mystery of the Ephesians,' realize the greater mystery of Christ."

"As for ourselves, it will certainly bring us to value more adequately this wonderful boon of spiritual vision. If we examine more minutely into the results that will accrue to us when we possess it. First of all, it is that we may know the hope of our calling. And what does this mean? We have badly missed oftentimes when we try to translate everything, but this must mean the hope of God's call—that and nothing less."

"Somehow or other in these days our joy over the scholars rediscovery of the historic Christ, is mixed with just a little plaintive regret. We do not miss the old world, but so long obscured the plain and simple figure of the Man of Galilee, but we do miss something of that wondrous light that once made radiant the cell of an Angelic. In the glare of the new knowledge our vision has faded into the light of common day. And with its fading has come a diminishing of our hope—a less buoyant spirit, and a less ardent enthusiasm."

"The hope of God's call is not experienced today as it ought to be. It is not the privilege to recover lost power of vision, and, rightly understood, the discovery of the historic Christ is a help and not a hindrance. Take any incident in the life of Jesus of Nazareth, or the one great triumph of His life—the entry into Jerusalem—and it takes no art of a Holman Hunt to make us see the halo about his head. With eyes enlightened men see in this humble prince and in this rude scene the prefiguring of all the mightiest passages of earth. The Hope of the World is here heralded—becomes more buoyant with a new joy, as the children sing their glad hosannas to our Lord and King."

"With our enlightened eyes we recognize the exceeding greatness of Christ's power. As St. Paul makes it clear, it is the power of His resurrection. How little we appreciate in these days the magnificence of divine grace. We act as though we were paupers—entitled only to a pittance—when we are, in truth, princes, endowed with a princely dowry. The exceeding greatness of God's power toward us who believe, the vision of our spiritual manhood, should obsess us with the consciousness of our princely heritage, and lead us to stand before the winds that blow, to know that He is sufficient for all our need."

REV. J. WHITCOMB BROUGHER.  
TEMPLE BAPTIST CHURCH.  
SOLID THOUGHTS OF DAUGHTERS WHO  
ARE ONLY USELESS ORNAMENTS.

Rev. J. Whitcomb Brougier preached last evening at the Temple Baptist Church, on "The Girl of the Home; Her Faults and Her Ideals." He said in part:

"The daughter in the home, as well as the son, ought to seek an education that will fit her to take care of herself, if need be, and to help bear the financial burdens of the home. If it should become necessary, personally, I believe a young woman's education ought to be just as thorough and efficient as a young man's. There is no reason why a young man should have a definite purpose in life and develop his talents and powers for the accomplishment of that purpose, while the young woman in the home should be content with a smattering of artificial knowledge that really in no sense equips her to meet and solve the problems of life."

"Many a girl can sing a little, play the piano a little, paint a little—picture a mean and old a lot of other little things, and yet not be competent in any one of them to make a living for herself and assist her parents in making a living. If it is necessary should arise, a daughter sits down at the piano and warbles 'What is Home Without a Mother,' while the mother is down in the basement, mending the 'Irish' piano and doing the washing."

"A young girl should know the science of self-support, and should be thoroughly equipped to meet the emergencies connected with the home in hours of emergency and contingency. No one can tell what will happen. The breadwinner of the home may be stricken; even the dearest fortunes have sometimes suddenly disappeared. It is a great and noble thing for a young woman to have a definite purpose in view that she can be a true helper in the home at such an hour."

"The daughter of the home should be fitted to bear her burden of the work. That daughter is relevant to her trust and to her mother's privilege who fails to learn early in life to help her mother bear the burden of toil and anxiety that comes to every home. Many a mother might have lived to a good old age, had she been a blessing and inspiration to her household, if her daughters had half appreciated what she had to do and to bear."

"A young lady graduate of one of our eastern colleges came back to her home and said to her mother: 'Now, for one year at least, I shall have the full charge and management of this house. You can come and go as you please, but for one year you are not to think of any of the responsibilities connected with the care of the home.' That young lady's college education had not spoiled her for undertaking the humdrum service of caring for household affairs, and she honored her father and her mother by accepting the obligations and insal-

ing upon doing her part to let them enjoy a period of rest.

"The daughter in the home should help bear the burdens of sorrow and suffering. That is a happy home indeed where the daughter's loving thoughtfulness makes her a companion to her mother and a joy to her father in the hour of sorrow and adversity. No one but a mother or a father can possibly understand how much the loving, tender, thoughtful sympathy of a daughter means to them in the hour of discouragement and despondency. But a young woman is going to be all that she ought to be to her home, let her have a noble ideal of womanhood and strive by all the powers that God has given her to realize that ideal."

"No young woman can make her father's or mother's heart happy who fails to be a pure, bright, happy woman herself. Living a pure, bright, happy life, she may do much to cheer the heart of father and mother, and to bring sunshine and happiness to the home."

REV. WILLIAM MACCORMACK.  
ST. PAUL'S PRO-CATHEDRAL.  
LET THE SOUL FIRST TAKE THE BODY FOR THE COMFORTS OF THIS BODY.

"It is wrong for Christians to spend Sunday at the beach," was the question reviewed by the Rev. William MacCormack, last night, at the Pro-Cathedral. He said in part:

"Understand that I am speaking to Christian people, now. If I were addressing those other than Christians, I would not doubt say some things different. But Christians, I would ask, whose day is it? Is it God's day? And because of this prior ownership, I do think it wrong for people to spend the day at some beach or place of pleasure, without first making some public acknowledgment of their faith and profession."

"Then, as for those who work every day, they get a chance to go any place. If they do not, their religious, or even afterward, just so that some part of the day is set apart for public expression of their beliefs. I do not think it is wrong to spend the remainder of the day where their inclination points. But get the distinction."

"There are those who are very worried as to give their body every care, without asking for their soul's care, and the body will some day crumble into dust, while the soul will live forever. So let the soul come first, then look for the comforts of the body."

REV. DR. GEORGE A. ADAMS.  
FIRST METHODIST CHURCH.  
"JESUS HAD A HEAVENLY HOME."

Before congregations that filled the First Methodist Church to its capacity at both morning and evening services, Dr. George A. Adams, pastor of the California street M. E. Church of San Francisco, more than justified his reputation as one of the ablest speakers in the Methodist world. In the morning his theme was "A Bow in the Cloud" and in the evening "A Cheering Truth." In the latter service, Dr. Adams said, in part:

"The man receiveth sinners and eateth with them." "Precisely where Jesus was at the time he uttered these words is unknown, other than that he was on his last journey to Jerusalem. He was surrounded by a mixed company of publicans and sinners, Scribes and Pharisees. The latter were unfriendly to Jesus, and whenever opportunity afforded, they were not slow to express their contempt for him. The sinners, however, were friendly, and although they were not helpful to the cause of Christ, yet on this occasion, they were especially attracted to the teaching of Jesus, and probably glad to hear those words of comfort and cheer. The words of the text were intended to hurt and to heal, and the mission of Jesus, but they had contrary results. Jesus led to a wonderful response from our Lord in the three parables of the lost sheep, the lost piece of silver and the prodigal son."

"Each of these carries its own significance. Observe the first indicates that a lost sheep is utterly unable to retrace its steps in any degree, with the lesson that there is nothing so really lost as a soul who has left the fold of God and wandered away into sin; lost to soul security and happiness in the love of God."

"The lost piece of silver teaches that the coin is of exceeding value when in its proper place, and is lost, though it bear the stamp, the image of the ruler and a royal inscription, to be worthless for its sacred purpose. Moreover, what great truths are taught in the parable of the prodigal son. Horace Greeley once said 'if there could be only one page in the Bible, I should choose that the single page should contain this parable.'"

How sadly possible it is for the object of a father's love to leave the fold of home and yield to the attractions of sin and be degraded to the level of the brute. Alas, the sinner, in the selfishness and pride of his heart, prefers self-gratification and wicked abandon to the joys of obedience and love. But in all this we should remember the lost sheep was as much a sheep as when he was found. The lost coin was as much a coin when lost as found, and the prodigal son, though less a man, was as much a son when he was found as when he was lost. When lovingly enfolded in his father's embrace. The only difference was in their conditions and position."

"Bring the lost sheep to the fold, and without any questioning it begins to graze as peacefully as ever. Restore the lost coin to its rightful owner, and it will be as valuable as it was before covered with dust. Reclaim the prodigal, and he will find as warm a place in his father's heart as when in childhood innocence he was dandled in his father's knee. Or let the sinner wash in the fountain for sin and uncleanness, and he will be restored to his primitive condition and bear the image of God."

"The truth of our text is, the Pharisee's uncharitable tribute to the divinity of Jesus Christ. Similarly, his murderers honored him when they wrote the inscription over the cross, 'This is Jesus the King of the Jews.' So in the history of the world, derision has frequently contained intrinsic truth. There was more eloquent truth declared than when the enraged Pharisees and scribes, with indecipherable bitterness, said 'This man receiveth sinners.'"

"These Pharisees and Scribes were acquainted with the Old Testament scriptures. The Pharisees boasted of their strict observance of the law, and claimed special merit and preeminence because of this. The Scribes were learned in the law, and were copyists of the law and its interpreters also. Therefore, these men would not be ignorant of the symbols of the law given on Sinai. They would certainly know the meaning of the numerous sacrifices offered in the temple, and the shedding of the blood of beasts and birds was not without significance."

"There was something more than form in the sprinkling of the mercy They knew that the office of the priesthood was merely provisional, and that all the ceremonies of the temple were but symbols of the redemptive work of Jesus Christ."

"When the Pharisees said, 'This man receiveth sinners, and eateth with them,' they meant that he not only received them with the common courtesy of a man, but that he received them on terms of equality without any evidence of his own superiority; hence their derisive manner and their words of scorn."

"What higher tribute could be paid to Jesus than that 'He receiveth sinners.' A man may be kind and courteous toward his fellowmen, but to receive them in the sense we understand Jesus to receive them, is a far more difficult matter. The enemies of our Lord believed in the sovereignty of God, and His power to save the sinner, but they were unwilling to accord this power to Jesus, the Son of God. Nevertheless, they unconsciously declare this underlying truth of our text. They said the only one who could forgive sin was God."

REPUBLICANS LEAD.

Six Fresno County Officers Will Apparently Have no Opposition.

Rain Situation.  
[SPECIAL CORRESPONDENCE OF THE TIMES.]  
FRESNO, July 16.—The list of nominees for the various county offices shows considerably more Republicans than Democrats. Six county officers will apparently have no opposition for reelection. Four are Republicans and two Democrats.

Hopes expressed early in the year that the price of raisins would be maintained at a cents are being depressed by the movements of packers during the last few weeks. Several big houses have agents in the field offering for sale at a cents. While it is not known that they have secured any great amount of the incoming crop at this figure, their action has agitated local fruit men considerably. It is reported that a number of ranchers have disposed of their crops at 2 1/2 cents.

Those of the packers who assert that they have been attempting to hold up the price to a 2 1/2 cent figure attribute the sudden drop to the eagerness of the growers to sell and the desire of some of the packers to stock up now that the growers are more or less panicky.

Workmen began setting the steel last week on the new Fred Henderson building for the Orpheum, on South Broadway. From now on progress should be rapid.

## Grows Hair on Bald Heads

Resorcin is one of the latest and most effective germ-killers discovered by scientists and in combination with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new growth.

Pilocarpine is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease. Yet it is not a coloring matter or dye. "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol, because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and stimulates a new growth.

We want you to try a few bottles of Resorcin "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Resorcin "93" Hair Tonic will grow hair on bald heads, except of course where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is slazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Resorcin "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50 cents and \$1.00. Remember, you can obtain Resorcin Remedies at The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Cal.; Seattle, Wash.; Portland, Or.

6% Investment vs 6% Speculation

Most securities are subject to wide fluctuations. Their value is seriously affected by general business depressions or other unfavorable conditions, making them speculative in nature and unsuited to the needs of the careful investor.

The \$100.00 Full Paid Certificates of the State Mutual Building & Loan Association do not fluctuate under ANY condition. They not only pay six per cent interest year in and year out, but the principal invested is absolutely safe, and is available at any time after the first year.

They are a safe, sure investment without one speculative feature.

State Mutual Building & Loan Association

NEWS REPORTS FROM COR

**Bishop Hughes**

THE SIXTH.

**CAMP MEETING STARTS BY SEA.**

**METHODISTS ASSEMBLE FOR A BIG CONVENTION.**

Violent Shower Marks the Start at Huntington Beach of Important Religious Gathering—Bishop's Address Brings Tears to Eyes of Men and Women Alike—The Programme.

HUNTINGTON BEACH, July 17.—With the youngest of the bishops of the Methodist Church as its leading pulpit orator, and with the distinguished president of DePauw University of Indiana to second his efforts in creating a genuine religious revival in this State, the Huntington Beach Methodist Assembly, an organization numbering among its members the leaders of that denomination in Southern California, opened today its staff of consecutive camp meetings and Power League convention in this city.

Los Angeles, Plandena, Long Beach, San Diego, Riverside, Redlands and practically every city in this section sent delegations to swell the audience which filled every portion of the beautiful auditorium. Every canvas in the beautifully arranged Tent City held the quota of religious men and women who expect to remain here through the month that will be occupied by the camp meeting and convention.

Gray-haired fathers and mothers are mixed with pious and spiritual enthusiasm mirrored in their time-worn faces. Young men and young women whose primal strength is enlisted in the cause of Christ mingle their prayers and their devotions with those of boys and girls whose youthful hearts are already devoted to Him. There may have been in the audience today some whose presence could be attributed to curiosity only, or to a desire merely to be a part of a great gathering, but it was plainly evident that the major portion of the audience attended the opening day of the great camp meeting in a purely religious spirit.

At 1 o'clock this morning the sunrise prayer meeting, which is to be a part of the programme every day, occurred in the devotional services. This was followed at 3 o'clock by the mission services conducted by Rev. Dr. Foster of Los Angeles, the leading feature of which was the short sermon preached by persons who had been numbered among the "down and out" the derelicts of humanity, and whom the mission had saved from lives of crime.

**BISHOP HUGHES PREACHES.**

After prayer by Rev. Dr. Larkin of Los Angeles, Bishop Edwin M. Hughes of San Francisco delivered his initial sermon here, taking as his subject "The Gains of Christ." The sermon was a powerful review of the statements made by Christ while on earth in regard to His own place in the spiritual world, and particularly emphasized the fact that no other person ever admit any sin on His part or ever ask for forgiveness for Himself. The eloquent speaker called attention to the fact that at no time did men in the religious history of the world free from claim to be absolute sinners, even Buddha and Mohammed, and that the commission of sin and seeking pardon of God.

Bishop Hughes also commented at length on the fact that Christ has, through all the years since the coming of the New Testament, been referred to as the "meek and lowly Jesus." His assertions on all occasions that He was greater than any human potentate and that all His future rested solely on their belief in Him. He cited the fact as evidence that there had been men in those who heard Him some recognition of His unique relation to God. The meek and lowly Jesus had been stamped not as the meek and lowly Jesus, but as the most condescended and self-assertive of all persons.

The eloquent oration of the bishop's magnificent sermon was followed by an appeal to his hearers to surrender their lives to Christ, even giving up family ties if need be to do so. It created an intense and long impression on the great audience, as the answers by the tears which filled the eyes of men and women alike. The bishop desired another sermon in the evening, and was again the immense audience. He will preach every evening during the continuance of the camp meeting.

**EARNEST ADDRESS.**

Rev. Dr. J. W. McConnell, president of the DePauw University of Indiana, conducted the services at 1 o'clock in the afternoon, and made an earnest and earnest address. He will speak at the same hour every evening except Saturdays during the mission. Evangelist Hugh Smith will have charge of the after service.

**RESPONDENTS OF THE TIMES.**

**Where Methodists Meet.**  
Auditorium and Tent City at Huntington Beach, where assembly started yesterday, and two less of the church.

train today, and a conservative mate places the number now here fully 5000. The early morning hours today's services were somewhat marred by a sudden rain, which lasted but an hour with considerable violence. The skies soon cleared and the auditorium was quickly filled.

The daily programme for the coming meeting includes a morning sermon by Rev. Dr. Hugh Smith, an afternoon sermon by President McConnally, and a night service by Bishop Hughes, except Saturdays. The North League held the first of its sessions today at 8 o'clock p.m. The will be repeated at the same hour until further notice.

Many distinguished Methodist Episcopal divines are present. Among them are Rev. J. J. Jones, the presiding elder of the San Diego district; Rev. Dr. W. R. Mather, treasurer of the Assembly; Rev. Dr. Joseph Foster of Los Angeles, who has charge of the Los Angeles Methodist mission; and Rev. Dr. Larkin of Los Angeles. Rev. M. E. Burkett of Santa Ana, the president of the Assembly, was not present today, but will arrive tomorrow with other pastors noted in this section.

The large cafeteria, is located on the Tent City grounds, and furnishes meals to those occupying tents as well as to the public generally.

**"Hotel del Coronado" leads 'em all.**  
**WILL BOOST FOR VALLEY.**

**El Centro to Send Party to Los Angeles, San Diego and Other Coast Points.**  
**EL CENTRO, July 17.**—The Chamber of Commerce plans to send a "boosters" excursion to Los Angeles, then to other Coast points and on down to San Diego, during August. It is proposed to give parades showing Imperial Valley products, and to generously distribute valley literature. The Southern Pacific will cooperate, and it is expected that fully 100 El Centro citizens will join in the movement.

**GRAPES ARE MOVING.**  
Carload movements of grapes are now the feature of Imperial Valley products. The first car lot went out from Hobeart to Chicago, the market Thursday, and shipments are being made from Brawley, Keystone, Imperial and Calexico. Returns on the first shipments have been very satisfactory. Further shipments to El Centro will be undertaken on several valley ranches this year.

**EQUALIZERS IN SESSION.**  
The Imperial County Supervisors as a board of equalization last week but had few complaints to consider. The remarkably increased tax on real property in this county during the past year will give opportunity for lower tax rate.

**COURT ADJOURNS FOR SUMMER.**  
The Imperial County Superior Court has adjourned for the summer vacation, although Judge Cole, who is in Los Angeles, has returned to El Centro to hold a session the 29th inst.

**LIBRARY BUILDING—AGAIN.**  
Several weeks ago the City Trustees advertised for bids for the construction of the Carnegie library. This which a donation of \$10,000 was made by Andrew Carnegie early in the year. When the bids were opened it was found that they were more than \$200 higher than the amount of the building fund. Now arrangements have been made to readvertise for bids, and it is believed the figures will be such that the project can be handled with the money available. The trustees have set October 15 as the date for the beginning of work on the structure.

Frederick W. Callahan and Susie B. Pickens, both residents of Imperial, were married here on the 12th inst.

**GOES TO NEW YORK.**  
Allen Kelly, editor of the Imperial Valley Press, has gone to New York to see his wife and son, and will visit in the New England States before he returns. He will be absent five weeks.

A high windstorm prevailed in Imperial Valley on Wednesday night, doing some damage to temporary structures and blowing away heavy rains in various parts of the valley, and during the entire week high humidity prevailed.

**Coronado Tent City is open.**  
**APRICOT GROWERS MEET.**  
Moopark and Fairview Districts Represented at a Gathering Held at the Former Town.

**VENTURA, July 17.**—A representative meeting of the apricot growers of the Moopark and Fairview districts was held at the former town on the evening of the 16th inst., with a view to discussing prices.

Believing the market to be strong, the demand, it was unanimously agreed to hold for not less than 5 cents per pound, and many were inclined to further delay that as to the sale. The quality of fruit in this section is unusually good this season.

The apricot growers are getting restless in other sections as well as here, discussing and comparing quality and quantity and standing fruit than ever before for a fair return to their labor.

It is hoped that meetings will materialize into an apricot association Southern California.

The Pacheco, arrested for the murder of Gilberto Padella at a water camp on Sulphur Mountain a week ago, were examined last night by a jury today on the charge. The men are not related. The testimony against them was given principally by Mrs. Martinez, who testified that the two Pacheco and Padella had a quarrel and that the Pacheco got the other man down and beat him.

  
*Rev J. W. M. Connolly*

**WRECKED IN STOLEN CAR.**  
**Colored Lads of Riverside Come to Grief in Auto They Took from Garage Without Leave.**  
**RIVERSIDE, July 17.**—A five-passenger Vellie automobile, taken without leave from the Crescent Garage last night by Jerry Wiley, colored, was driven down the steep embankment of the Terquesquita Arroyo, near the corner of Main and Fourteenth streets, at an early hour this morning and overturned at the bottom, forty feet below. Wiley has been employed in taking care of the cars at the garage. Two colored lads, named Larson and Cole, were with him in the machine. A fire was thrown out but were uninjured and disappeared immediately after the accident.

Neighbors heard the crash as the car went down the bank and notified the police. Larson and Cole were found by the officers and are under arrest. Wiley fled in alarm and boarded the 8:41 a.m. Salt Lake train for Los Angeles.

The officers in that city were notified to be on the watch for him. He was placed under arrest upon his arrival there and brought back to Riverside.

The car turned a double somersault in plunging down the bank, and when found it was lying on one side, headed toward the top of the embankment. It was badly wrecked.

A sneak thief entered the Y.M.C.A. building last evening and walked away with a \$40 suit of clothes, a gold watch and \$15 in money, belonging to C. L. Hetzel and a scarf pin and \$7 belonging to O. Passman. The two men were swimming in the plunge when the clothing and other articles were taken. It is believed the thief escaped by the Lemon street exit, which was not lighted.

**"Hotel del Coronado" is the Best.**  
 Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery and should be taken at the first unusual looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by a dealer.—(Adv.)

**WE CASH**  
 Pay Checks for our depositors. It saves time and money. They get the money saving habit. It is a pretty good habit. Your wife won't ask you to quit it. She will help you. Save some every week. It draws interest. That helps, too. Try it.

nts is to get the  
thing is exacted it  
but that the great  
nts shall win. One  
boy and the girl  
by Wednesday  
when the sec  
is.  
is another opp  
who are not the  
ra' to show what

not matter where  
at the head of the  
the foot of the lo  
ave a chance of  
of you work. So h  
week of all!  
ord about the coup  
facilitate the coun  
upons put up in  
five; so after the  
rule. Contestant  
take notice. The  
through with a  
and thus fasten  
a great task, coun  
which come in; an  
well as rapidly  
t, we must ask

hoped that by tomorrow  
the winner of the prize  
would be offered last week's  
race.

DR. BURDETTE IS CAUGHT. Temple Baptist Congregation Spoils His Intention to Mingle Unofficially.

Yesterday was the first Sunday Dr. Robert J. Burdette attended Temple Baptist Church since his return from the Orient, and the congregation turned out in force to welcome the pastor-elect.

Dr. Burdette occupied a seat on the platform with the pastor, though he took no part in the service other than to offer prayer. After the service he was escorted to the main door of the auditorium while the members of the congregation looked around him, shaking hands and expressing their pleasure at seeing him back home again.

It was Dr. Burdette's intention to slip quietly and unobtrusively into the congregation, but when it was learned that the beloved pastor would be in church yesterday, there was general rejoicing, and the church folk immediately after the service, he visited the Sunday-school classes, making a brief address before each.

One hundred and thirty-two employees of the local postoffice have been promoted one grade. Thirty-one of the promoted are carriers and 101 clerks. Six clerks and twelve carriers were advanced from the \$600 to the \$800 grade; nine clerks and three carriers from \$800 to \$900; sixteen clerks and two carriers from \$900 to \$1,000; fifty-one clerks and six carriers from \$1,000 to \$1,100 and sixteen clerks and eight carriers were advanced from \$1,100 to \$1,200. The increase in salary is effective from the 1st inst.

Receipts of the local postoffice for the twelve months ending June 30 of this year show an increase of \$201,282.92, or over 17.19 per cent, over 1928. Every single month shows an increase in the receipts over the corresponding month of the preceding year, while some months show a much greater increase. The largest increase is shown for December, during which month the business went \$93,537.76 ahead of that for the same month in 1928.

REGISTERED RECEIPTS. Hereafter no receipt will be returned to the sender of registered mail unless they indorse the receipt with the words: "receipt wanted." In compliance with the new law, the Postmaster General has issued an order to the effect that where the sender so indorses his letter a receipt shall be taken from the recipient and returned to him. Otherwise no receipt will be returned.

SCHOLARSHIP. PORTVILLERS FOR WEEK. BREATH, AWAY AGAIN. To Begin—A Race to Redeem Lost Breath—Those Already Won—High Five Ready for the Run—Boys' and Girls' Three Days' Highest Score.

THE EIGHTEENTH DAY. All members of the club, City, 1928-29, 1929-30, 1930-31, 1931-32, 1932-33, 1933-34, 1934-35, 1935-36, 1936-37, 1937-38, 1938-39, 1939-40, 1940-41, 1941-42, 1942-43, 1943-44, 1944-45, 1945-46,
